The CDS County Criminal Search is one of the most powerful tools for uncovering criminal records. Since law enforcement agencies report felony and misdemeanor charges at a County level, this type of search is the best choice to maximize the ability to locate any existing criminal history on a given individual.*

CDS researchers hand pick information from courthouse records in every county in the United States. All County criminal searches go back a minimum of seven years and include felonies and misdemeanors. Turnaround time is 24 to 72 hours and you get the most accurate, up-to-date information available.

CDS County Criminal searches can be run separately or combined with other CDS Background Screening options. [Contact us](#) today for personal assistance.

*Due to the lack of a complete and reliable national or international criminal database, no criminal record search can guarantee a 100% hit rate on locating existing criminal histories.
