

Social Security Number Trace

Written by Admin

Monday, 24 January 2011 03:04 - Last Updated Friday, 18 March 2011 23:52

A Social Security Number (SSN) trace from CDS provides a name and address trace based upon the SSN and its associated first and last name. The report returns all names and addresses associated with the given SSN. CDS technology means instant turnaround!

CDS Social Security Number traces can be run separately or combined with other CDS Background Screening options. [Contact us](#) today for personal assistance.

*A Social Security Number trace does not validate that a particular person or criminal record is associated with the SSN.
